

STANDHAUS
STAND DESIGN & CONSTRUCTION

Our Company

STANDHAUS is a company dedicated to the design and construction of stands at international events that provides technological solutions to its clients allowing them to efficiently compete in the global economy. From the beginning, **STANDHAUS** has grown due to its integration of a highly specialized staff that is competent and brings its clients appropriate solutions while respecting budgets and time frames for completion based on the guidelines established in our contracts. Our services include the design and construction of stands and exhibition points utilizing the most advanced technology.

Our experience and broad range of collaboration has molded our technical team to be able to offer the latest technological solutions available and produce optimum results in the international marketplace.

STANDHAUS designs suitable solutions for its clients according to the specifications agreed to while maintaining within budgets and timelines. Each member of our team provides invaluable experiences that create effective solutions for our clients.

Image

Your stand, at an international event, is an extension of our corporate image. **STANDHAUS** is equipped to assist you in reaching your goals in fairs and exhibitions worldwide with creative, innovative and modern designs. Our experience will assist you in presenting your products and services to provoke the necessary impact in your clients. Our professional team will translate your corporate concept into an efficient design utilizing the latest technology available.

Costs

Not having intermediaries and the need to subcontract services has allowed our company the advantage of offering services of exceptional quality at reasonable prices.

STAND DESIGN & CONSTRUCTION

Integrated Solutions

STANDHAUS offers its clients solutions in all logistical aspects related to fairs and expositions worldwide. Among the additional services that our company offers, we would like to mention the following:

- Shipment of materials to Europe, the United States and Latin America. Usually we offer this service by consolidating the freight in Madrid and delivering it to its destination and directly to the stand.
- Storage and maintenance of your exhibition materials within our warehouse.
- Transportation of equipment and exhibition materials between fairs when participating in multiple events.
- On-site presence of STANDHAUS management staff at all events.
- On-site presence of STANDHAUS maintenance staff during duration of event.
- Public Relations pre and post events.

Exhibition Materials

Approximately 90% of our projects are custom made and by request of our clients. We rely on the machinery and the means that enables us to build with confidence from the simplest stand to the most sophisticated design. We also have available more than 2,500m² of modular system such as Octanorm in white color along with complimenting accessories such as displays, counters, podiums, shelving, etc., creating an ample catalogue of design furnishings for rent.

Organigram Of Personnel

- Directors of Corporation & Administration
